MS1 Multi-Space Pay Station

The MS1 Pay Station is the latest generation of unattended payment systems from IPS Group. The MS1 incorporates the unique features of the Proven™ IPS single-space platform, while offering customer focused features such as IntelliTouch™ transaction processing. The MS1 features robust hardware design, which includes a stainless steel cabinet and armored glass.

Key Benefits

Flexibility: The MS1 is available in pay-by-space, pay-and-display, and pay-by-plate models. A simple change of the key pad and a firmware update are all that are required to support the different modes.

Unparalleled Power Efficiency: Powered by environmentally-friendly solar panels and combination battery packs to maximize ongoing power.

Customization: Configurable buttons include help screens, alternative languages, max time, and more.

Guaranteed Quality: High security stainless steel housing with weather and graffiti-resistant powder coating make it both durable and easy to maintain.

Improved Visibility: Blue LED lighting above the display provides enhanced visibility for motorists, technicians, and collections staff.

Customer Friendly Features: IntelliTouch™ provides additional flexibility when completing a transaction. Users may begin the payment sequence in any order after which the MS1 will guide them through the transaction.

Dependability: Pay stations communicate wirelessly on the GPRS/3G cellular network, ensuring fast and reliable communications while processing secure credit card authorizations, wireless downloads of rates and messages, and transmissions to the Data Management System (DMS).

Easy Maintenance: Modularly designed with the technician in mind for easy plug-and-play maintenance.

Future-proof Design: IPS Group's open interface provides seamless integration with third-party systems, such as enforcement, permitting, and ANPR (automatic number plate recognition) in order to further optimize parking operations.

Technical Specifications

Weight: 175 lbs

Dimensions: 12.5" x 12" x 60" (31.75 cm x 30.48 cm x 152.4 cm); MS1 is compliant with all relevant standards for disabled access.

Power: Solar (standard) or AC

Temperature Range: -40°F to 185°F (-40°C to 85°C); Optional heater, AC units only.

Payment Accepted: Credit and debit cards, smart cards, coins, tokens, pay-by-phone, and optional bill notes.

Cabinet Housing: Uni-body construction. High grade corrosion-resistant stainless steel treated and covered with weather and graffiti-resistant powder coating.

Locks: Cabinet is protected by a six (6) point secure locking system. The outer vault door locks are protected by anti-drill spin disks. Upper and lower housing require separate keys. The collection vault has a dual locking system with a T-bar. Electronic locks available upon request.

Display: Large monochromatic display screen is 320 x 240 pixels and allows for 7 lines of alpha-numeric or graphical messages. Display is protected by anti-glare coated armored glass (standard feature).

Printer: High-resolution graphic thermal printer allows for customizable graphics, vouchers, and barcodes, which are programmable from the Data Management System (DMS).

Coin Box Capacity: Two options for exchangeable coin box: 2450 coin capacity or 700 coin capacity. "Smart" sensing technology available in both coin box models.

Bill Stacker (optional): 600 bill notes

Parking Enforcement Management Solution

IPS continues to exceed industry standards by offering innovative technology solutions that bring greater efficiency to parking operations, which now includes the IPS Parking Enforcement Product Suite. The next-generation Parking Enforcement Management Solution manages the entire citation lifecycle from issuance to collections and incorporates state-of-the-art real-time technology and customer service resources. The IPS solution is built from the ground up and future-proofed to stand apart from aging and obsolete legacy enforcement systems and equipment. This fully-integrated solution from IPS includes a handheld citation writer, a back office web-based application, and an online public portal.

FEATURES

- All-in-one enforcement device integration with IPS meter integration
- Dashboard features real-time statistics, heat mapping, user activity and performance analytics
- On-demand visual reporting with multiple export formats
- Cross-platform, cross-browser and cross-device compatibility
- Single sign-on (SSO) enables access to meter and enforcement data in one back office

INTEGRATION WITH:

- National Law Enforcement Telecommunications Systems (NLETS) in all 50 states
- Verizon and T-Mobile
- Third-party cashing and financial systems
- LPR technology
- Letter Mailing and Lockbox Payment Services

For more information on the fully-integrated solution from **IPS Group**, please contact us.

HANDHELD

The most innovative on the market today, our easy-to-use handheld citation writer ensures parking enforcement officers experience a convenient, quick and efficient citation issuance process.

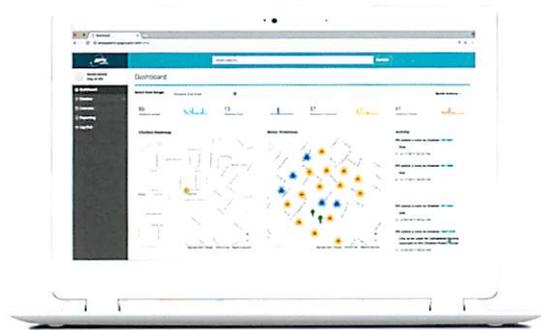

FEATURES INCLUDE:

- All-in-one 1-piece or 2-piece solution, Android OS compatible
- Real-time syncing and connectivity
- Lightweight and portable, but rugged to withstand weather and heavy-duty use
- High contrast, easy-to-read screen
- Integrated thermal printer produces easy-to-read tickets
- Magnetic strip and smart card reader for payment collection
- High-resolution color photos, e-chalking and heat-mapping
- Scofflaw and customized notifications.

EMS

The Enforcement Management System (EMS) is a real-time, web-based enforcement application that gives officers access to case information including high-level citation summaries, photos, notices and letters, adjudications and voids.

FEATURES INCLUDE:

- Cross-compatible interface across all operating systems and devices
- Advanced search capability and option for manual citation entry
- Adjudication and disposition management
- Personalized report libraries
- Payment and refund processing
- Notice and letter processing

CITATION PORTAL

The Citation Portal is a website that allows citizens to review the current status of their citation, pay or obtain information on how to contest their citation, review fine amounts including late fees, and obtain additional information.

FEATURES INCLUDE:

- Real-time access to citation status and transaction history
- Highly secure PCI compliant application
- Cross-compatible interface supports all browsers and devices
- Customizable interface and branding
- Comprehensive (Smart) FAQ and customer service reporting
- Accepts all major credit cards

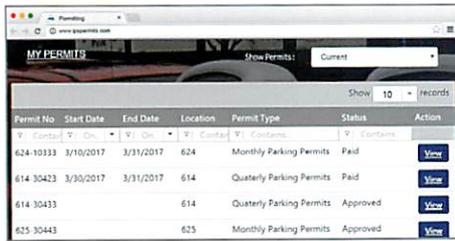

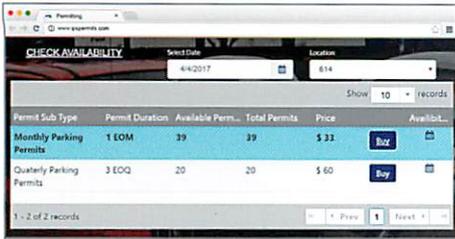

Permit Management Solution

The IPS Permit Management Solution provides property managers for cities, educational organizations, and other agencies the flexibility and convenience to manage the entire parking permit lifecycle from initial design through fulfillment via a web-based system. Property managers can search for the most current and accurate permit information by license plate number, location, contact name, or permit number, as well as check permit order status, 24 hours a day, 7 days a week.

FEATURES

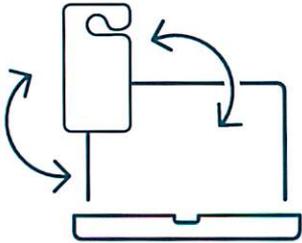

- Flexible permit types and rates including residential, guest, and daily permits in multiple formats such as decals, hang tags, or electronic permits
- May be implemented as a stand-alone solution or pre-integrated with the IPS Parking Enforcement Management Solution
- Comprehensive online reports such as payments and activity are easily generated and available in a variety of formats including Excel and PDF
- Permit-seekers can review rates and availability of spaces, apply for a permit, upload verification documents, and purchase permits online in real time
- Immediate access to temporary permits available in printable format
- Secure 24/7 login and access to permit information; vehicle and permit data updated in real time

For more information on the fully-integrated solution from **IPS Group**, please contact us.
